A.I.F.

# Our Expertise

- ***Knows how to handle Dangerous Goods by air***

Our IATA-DGR-trained employees organize the transport of dangerous goods by air freight. The IATA-DGR (International Air Transport Association - Dangerous Goods Regulations) is a set of rules for the transport of dangerous goods by air. On this basis, our experts ensure that your air freight shipments not only leave the airport on time, but also reach your customers in time.

A.I.F.

# Our Expertise

- ***A.I.F. is a good partner for hazardous goods storage and warehousing***

Both the handling and the storage of hazardous substances require sound logistical know-how.

A.I.F. offers many years of experience in the transport of dangerous goods, a modern hazardous materials warehouse and highly qualified employees for the safe handling and storage of dangerous substances.

A.I.F. is trusted by many companies that handle dangerous goods for our high security standards.

A.I.F.

# Our Expertise

## ▪ *Optimally protected in all phases of the supply chain*

A.I.F. is the competent contact for the storage of hazardous substances in almost all storage classes.

We offer a safe and environmentally friendly hazardous materials warehouses with the latest security technology almost a unique selling point in the region. A storage area of 6,600 m<sup>2</sup> guarantees a permanently safe and calculable complete solution in hazardous goods logistics: from storage, picking and packaging to transport.

Dangerous substances of the following storage classes can be stored:

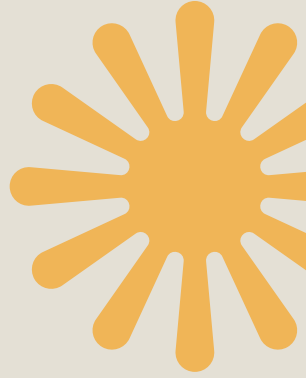

Goods of storage classes 2, 3, 4, 5, 6, 8, 10, 11, 12 and 13 (according to TRGS 510) can be stored, including e.g.

1. Flammable gases
2. Compressed gas packs
3. Flammable liquids
4. Oxidizing substances
5. Toxic substances
6. Very toxic substances
7. Corrosive substances
8. Environmentally hazardous substances

A.I.F.

# Our Expertise

A.I.F. is recommended as a specialist with many years of experience from numerous projects. Our employees have expertise in the storage of hazardous substances and receive regular training in this area.

A comprehensive quality management system and the usual certifications are a matter of course.

Thanks to the combination of warehouse and logistics expertise, A.I.F. provides individually tailored solutions. A non-binding personal advice on dangerous goods is, of course, part of the service.

**Thank you**
